## DID YOU KNOW...

An increased steering or turning radius means the car does not turn as sharply and can make it difficult to maneuver in tight spots like parking lots or drive-thrus. This increased radius can be caused by several different things. One of the common reasons is that wider than stock front wheels are being used. This will increase the track width and in turn increase the steering radius slightly.

## Bilstein Gas Shock Absorbers

- Our best hi-performance shock
- High pressure gas
- Buy a set and save!
- Cannot ship by air \*

Specifically calibrated for high performance Corvette applications, Bilstein high-pressure gas shock absorbers offer all the advantages of a gas shock, plus construction and performance features that are incomparable. Guaranteed not to fade, the Bilstein shocks are 20 % stiffer than original equipment shocks for true high performance and racing applications. Bilstein shocks feature a seamless, mono-tube construction for fast heat dissipation and finely machined components to yield the most sensitive valving available today. Bilstein shocks may increase the ride height of the car approximately one-half inch if the car has settled due to worn suspension components.

## Double-Adjustable Front Coilover Shock Kit

- 18 compression and 18 rebound settings
- Replaces original spring and shocks
- Reduces unsprung weight for faster reaction to changing pavement
- Quick and easy ride height adjustments
- Kit includes two shocks, springs and hardware

The key difference in these QA1 coilover models is the range of adjustability. The double-adjustable units have 18 various valve setting controlling rebound and compression simultaneously. They made this valving option change to provide more definitive valving control settings that can be felt as well as graphed on a shock dyno. Cannot be shipped by air.

## Body Lowering Bolt Kit

- Simple bolt-in installation

This Corvette lowering bolt kit is the perfect performance and appearance enhancing suspension upgrade for your 2005-13 C6, Z06, ZR1 and Grand Sport. Adding to its aggressive looks, the lowering bolt kit will lower your Corvette's center of gravity reducing squat during acceleration, body roll in corners and nose-dive under braking. Easily lower your C6/Z06 Corvette up to 2-1/2" with these specially designed lowering bolts. The kit will improve handling as well as adding an aggressive, edgy look.

## Body Lowering Bushings

- Lowers ride height 1-1/2" to 2"
- Improves handling and provides a more aggressive look
- Includes front and rear polyurethane bushings

Whether you want improved handling or a better look, these Corvette body lowering bushings are the ticket. You can adjust them from stock ride height to 1-1/2" lower on the Z51, or 2" on a stock suspension Corvette by simply turning the spring bolts. The new polyurethane bushings are thinner than the stock bushings thus allowing the necessary adjustment. These bushings install over your existing spring bolts and clip into place once the rubber bushings have been removed. Installation requires removing the stock spring bolts and cutting the original rubber bushings off.

## Legendary Corvettes Book

Chevrolet has never built an ordinary Corvette. Even the most mundane coupe draws a crowd everywhere it goes. But through victory at racetracks, exposure in film and television, or other notable achievements, a select few Corvettes have attained mythic status. Eighteen of the most legendary Corvettes of all time—from the first Corvette ever built for the 1953 model year to the late first-generation Corvettes used in the classic television series *Route 66*, to the five Grand Sport racers built by Zora Arkus-Duntov, the Godfather of the Corvette, to fifth-generation Corvette raced by the father-and-son team of Dale Earnhart and Dale Earnhart Jr. just before the older Earnhart's tragic death—are featured in this book.

## Zora Arkus Duntov: The Legend Behind Corvette

- Written by Corvette expert Jerry Burton, founding editor of Corvette quarterly
- 420 pages, over 200 black and white photos
- Soft bound, 8-3/8" x 9.25"
- The complete story of the man responsible for the Corvette
- The most fascinating personality associated with the Corvette

"Burton's comprehensive tome on the life and times of arguably the most fascinating personality associated with the Corvette is a must-read." - Motor Trend. The name Zora Arkus-Duntov has long been inextricably linked with Corvette in the minds of automotive historians and enthusiasts. But the story of Zora Arkus-Duntov runs far deeper than his twenty plus years of professional involvement as both Corvette's primary advocate within General Motors and as the fiberglass sports car's first chief engineer.

## Headlight Lens Install Service, Set

- DOT approved lenses with certification
- "DOT" visible on installed lenses as on original GM
- Factory sealant used for attaching lens to housing
- New genuine GM gaskets installed

Until now, your only choice for replacing damaged headlight lenses on C6 Corvettes was to buy a whole new headlight assembly from GM for over \$1,000.00! Now you can replace the lens with these OE (original equipment) lenses and save a lot of cash. Unlike low priced, off-shore knock-offs, you can be assured this lens will fit perfectly and has some very important proprietary features the knock-offs cannot duplicate.

## Lowest Price Guarantee

Eckler's Guarantee is simple: You always get the best quality parts at the lowest price! Show us the identical item advertised in any current magazine, catalog, or website and we'll match our competitor's current price, guaranteed! This offer is available only at the time of purchase and applies to in-stock merchandise only. We can't combine this with any other offer. Tires, restoration services, kits, window glass, cores, reproduction batteries, certain engines, transmissions, used parts, special order parts, and shipping and handling charges are excluded.

## Find the Latest Prices on our Website

Prices in this catalog were correct at the time of printing but are subject to change. Visit Ecklers.com for the latest up-to-the-minute pricing as well as hundreds of items not appearing in this catalog. Eckler's is not responsible for pricing changes, errors, or omissions in this catalog or online. Prices are subject to change without notice.

## 100% Satisfaction Guaranteed

Our commitment to you: If for any reason you are not 100% satisfied with any of our products, return them for a full refund, credit or exchange—your choice.

## Best Parts, Best Price

This is not just a slogan! Eckler's is committed to providing the highest quality parts at the most competitive prices. We source and select all of our parts exclusively from the world's leading brand name manufacturers using our massive buying power. This means you get the best there is, at the best prices in the market today.

## Shipping and Handling

Check Ecklers.com for current shipping and handling estimates. In the catalog, denotes items that ship via truck, and denotes oversized dimensions or weight, which incur additional charges.

## Gift Certificates

Perfect for when you just can't decide. Available in many different amounts from \$25 right up through \$1,000. Redeemable for any items we sell.

## Need it Fast?

Have your order delivered within 1 or 2 business days by using Express Shipping! Express Shipping is limited to in-stock, non-oversized items weighing less than 20 pounds. Orders must be placed Monday–Friday before 1:00 p.m. EST. Please contact our sales team for rates.

## Same-Day Processing

Standard U.S. order processing time for in-stock items is 24 hours. If you need your order processed the same day, call us Monday–Friday before 1:00 p.m. EST and request same-day processing. For a small charge we'll provide special processing of all in-stock parts the same day.

## Limited Warranty

Eckler's will not be responsible for any damage or loss caused by delays, failures, consequential damage, labor, transportation, or any other charges incurred in the replacement or repair of a defective item. Eckler's is not responsible for any consequences resulting from the installation of any parts.
